Comments: The Sexual Abuse and Assault Prevention and Intervention Standard was inspected during this inspection but is not referenced in the Standards Review Summary Report. The Standard was rated as Meets Standard for this inspection.

There were no allegations of sexual assault or abuse involving an ICE detainee during this inspection period.

There were no escapes, deaths or serious suicide attempts during the inspection period. The facility does not have a canine unit for contraband detection. The only chemical agent authorized for use at the facility is OC, oleoresin capsicum/pepper spray. The use of unsafe types of force such as choke holds, carotid control holds and neck restraints are not authorized. Tasers are not used.

There were thirteen use of force incidents during this inspection period; four of which were calculated uses of force. The four calculated uses of force involved detainees who refused to follow staff orders and were placed in restraints. All four incidents were recorded and staff used only the amount of force necessary to accomplish their planned objective. The use of force team technique was used in all cases. The force used was determined to be justified and appropriate. Detainees were immediately examined by medical staff once the situations were under control. The use of force packages were reviewed as part of this inspection and it was determined that staff followed policy in all incidents. The use of force incidents were appropriately documented and reviewed by senior staff. Additional details regarding the spontaneous uses of force are found in the end remarks of the Use of Force standard.

The statistics provided on page 2 of the Significant Incident Summary Worksheet pertain only to ICE detainees.
