Significant Incident Summary Worksheet

For Nakamoto to complete its review of your facility, the following information must be completed prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE' detainees at your facility.

Comments: The Sexual Abuse and Assault Prevention and Intervention Standard was inspected during this inspection but is not referenced in the Standards Review Summary Report. The Standard was rated as Meets Standard for this inspection.

There were two ICE detainee allegations of sexual abuse during this inspection period. One allegation was a result of an altercation that escalated to a sexual harassment by another detainee which was found to be substantiated. The detainee was consequently transferred to another facility. The other allegation involving an ICE detainee occurred while he was held in a Honduran prison in 2011. The detainee refused to provide any further information and was released before the Honduran agency could be informed. Procedures conducted were in accordance with the requirements of the standard.

There were no deaths of an ICE detainee during this inspection period. There was one ICE detainee serious suicide attempt during this inspection period. On 5/10/2019, a 34-year old Hispanic male was seen by a detention officer bleeding from his abdomen from a self-inflicted laceration using a single blade razor. Medical staff responded to the emergency code and the detainee was transferred to the Boston Medical Center emergency room. The detainee sustained an eight-inch laceration on his abdomen. He was treated and discharged from the hospital on the same day. He was placed on mental health watch upon return to the facility. The detainee was transferred to another facility on the same day.

There was one ICE detainee hunger strike during this inspection period. On 8/5/2018, a 35-year old male detainee declared a hunger strike after being in an altercation with another detainee and sustained an injury to his right fifth finger. He demanded that his injury

be addressed, which was already being treated, and continued to be on hunger strike. He started to eat after two days and was released from hunger strike by the nurse practitioner. Medical staff continued to provide follow-up care. The medical procedures conducted fully comply with the requirements of the standard.

During this inspection period there were no calculated uses of force, there was one immediate use of force involving an ICE detainee. The detainee was observed with an article of clothing around his neck attempting to hang himself in his cell. Officers took immediate action to remove the article of clothing being used by the detainee and placed him in the restraint chair. All reports and video indicated that force was applied within guidelines of the standard. The medical evaluation was timely and the detainee was not injured.

Oleoresin Capsicum (OC)/pepper spray is available if necessary. Tasers and canines are not used to control ICE detainees.
