Comments: The Sexual Abuse and Assault Prevention and Intervention Standard (SAAPI) was inspected during this inspection but is not referenced in the Standards Review Summary Report. The Standard was rated as Meets Standard for this inspection.

There were no allegations of sexual assault or abuse involving an ICE detainee during the inspection period. There was one SAAPI related allegation made by a non-ICE detainee. The non-ICE detainee alleged staff on detainee sexual assault. Per the prevention of sexual assault administrator (PSA), the allegation was investigated and determined to be a manifestation of mental illness and determined to be unfounded.

There were no escapes, deaths or serious suicide attempts during the inspection period. The facility does not have a canine unit for contraband detection. OC (oleoresin capsicum)/pepper spray is the only chemical agent used by the facility. The use of unsafe types of force such as choke holds, carotid control holds and neck restraints are not authorized. Tasers are not used.

There was one immediate use-of-force incident involving an ICE detainee during the inspection period. A male detainee attempted to exit the living unit and refused to obey a directive to move back into the unit. The medical evaluation was timely and the detainee was not injured. An after-action review was conducted and the use of force was determined to be justified and appropriate.
