Significant Incident Summary Worksheet

For The Nakamoto Group to complete its review of your facility, the following information must be completed prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE' detainees at your facility.

Comments: This inspection was conducted to determine the overall compliance with the ICE Performance-Based National Detention Standards (PBNDS) 2011. The following are the PBNDS 2011 additions/changes to the standards listed on page three:

- Medical Care (Women), a new standard, was rated Not Applicable (N/A);
- Classification System is now titled Custody Classification System;
- Suicide Prevention and Intervention is now titled Significant Self-Harm and Suicide Prevention and Intervention;
- Escorted Trips for Non-Medical Emergencies is now titled Trips for Non-Medical Emergencies;
- News Media Interviews and Tours is now titled Interviews and Tours;
- Transfer of Detainees is now titled Detainee Transfers

Although the facility reported an average daily population of one female ICE detainee in section M, per the compliance manager, the facility does not house female ICE detainees.

There have been no allegations of detainee on detainee or staff on detainee sexual assault or abuse during this inspection period. There have been no deaths or serious suicide attempts. Fifteen detainees were placed on suicide watch status.

There was one immediate use of force involving six ICE detainees who were fighting. On 9/17/2018, three fights broke out during the breakfast feeding in one of the housing units. Officers responded immediately and attempted to separate the combatants but application of OC was necessary to get two of them to stop fighting. Medical attention was immediate, as well as decontamination. Injuries to the detainees were minor and none of the responding officers were injured. Review by senior staff concluded that the force was necessary and reasonable. Tasers are not authorized at this facility and the only chemical agent approved for use is oleoresin capicum/pepper spray. Canines are not used in the presence of ICE detainees.
