Significant Incident Summary Worksheet

For The Nakamoto Group to complete its review of your facility, the following information must be completed prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE' detainees at your facility.

Recommended Rating:

☒ **Meets Standards**
☐ **Does Not Meet Standards**

Comments: This inspection was conducted to determine overall compliance with the ICE Performance Based National Detention Standards 2011 (42 standards), which include the following additions/changes to the standards listed on page three:

- Medical Care (Women), a new standard, was rated Meets Standard;
- Classification System is now titled Custody Classification System;
- Suicide Prevention and Intervention is now titled Significant Self-Harm and Suicide Prevention and Intervention;
- Escorted Trips for Non-Medical Emergencies is now titled Trips for Non-Medical Emergencies;
- News Media Interviews and Tours is now titled Interviews and Tours, and;
- Transfer of Detainees is now titled Detainee Transfers.

There were nine SAAPI allegations during the inspection period. Eight of the allegations were detainee on detainee and one allegation was staff on detainee. Three of the allegations involved female ICE detainees and six involved male ICE detainees. The staff on detainee allegation involved a female staff member and a male detainee. Three of the detainees on detainee allegations were determined to be unsubstantiated. Five investigations are pending final determination. The staff on detainee allegation resulted in the termination of the employee. Reporting, investigation and follow up were found to be within the guidelines of the standard.

Two detainees escaped during the inspection period. On 7/31/2018 at approximately 2:09 p.m., a detainee informed an officer on the recreation yard that two detainees had gone over the perimeter fence. The shift lieutenant was notified, and subsequently notified central control to close the recreation yard, placed the facility on lockdown for an emergency count, and notified the assistant OIC of a possible escape. The emergency face-to-photo count confirmed that two detainees were missing. The facility escape plan was activated, with ICE and local law enforcement agencies notified. One detainee was apprehended by ICE agents on 7/31/2018 at 4:20

p.m. ICE agents apprehended the other detainee on 8/1/2018 at 10:05 a.m. A post escape review was completed and resulted in the facility installing razor ribbon to the perimeter fence, upgrading security surveillance cameras and adding an extra perimeter patrol officer during evening hours.

The facility does not have a canine unit. There were two serious suicide attempts during this inspection period. Review of documentation confirmed that standard guidelines were followed.

There was one death of a detainee during the inspection period. The death involved a 54-year-old Armenian male detainee who arrived at the facility on 2/8/2018. The detainee had been monitored on a hypertension chronic care clinic. On 4/10/2018, the detainee experienced a cardiopulmonary arrest. Facility and medical personnel responded appropriately and initiated CPR. The detainee was transferred by ambulance to the local hospital where he was pronounced dead. An autopsy concluded the cause of death was "hypertensive and atherosclerotic cardiovascular disease".

During this inspection period, there were eight uses of force involving detainees. Three incidents were calculated uses-of-force involving one cell extraction, one for retrieving security equipment (handcuffs), and one for removal of contraband (civilian clothing) from a detainee. The five immediate use-of-force incidents involved two assaults on staff, two for resisting movement, and one for failure to follow instructions. During one of the calculated uses of force, the extraction team was not properly outfitted with tactical equipment and the team was not properly introduced. The after-action report confirmed that corrective action was taken. Documentation of the other two calculated uses of force were carried out as prescribed by policy. All reports indicated that force was applied within guidelines of the standard. Injuries to detainees and staff were minor and treated by medical staff in a timely manner.

Tasers are not used at this facility. OC is carried by supervisors and will be dispersed if necessary. Chokeholds are prohibited by policy.
