Significant Incident Summary Worksheet

For Nakamoto to complete its review of your facility, the following information must be completed prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE' detainees at your facility.

All findings (Deficient and At-Risk) require written comment describing the finding and what is necessary to meet compliance.

LCI Review Assurance Statement

By signing below, the Lead Compliance Inspector (LCI) certifies that all findings of noncompliance with policy or inadequate controls contained in the Inspection Report are supported by evidence that is sufficient and reliable. Furthermore, findings of noteworthy accomplishments are supported by sufficient and reliable evidence. Within the scope of the review, the facility is operating in accordance with applicable law and policy, and property and resources are efficiently used and adequately safeguarded, except for the deficiencies noted in the report.

Comments: The Sexual Abuse and Assault Prevention and Intervention Standard (SAAPI) was inspected during this inspection but is not referenced in the Standards Review Summary Report. The Standard was rated as Meets Standard for this inspection.

There were two allegations of sexual assault or abuse during the inspection period involving ICE detainees and one allegation involving county non-ICE detainees. No allegations involved penetration or required medical examination and forensic evidence gathering. All three allegations were investigated and determined to be unsubstantiated. Documentation of facility policy and practice was reviewed and confirmed to be within the guidelines of the standards.

There were no escapes, deaths, or serious suicide attempts during the inspection period. The facility does not have a canine unit for contraband detection. The only chemical agent in the facility is Oleoresin Capsicum (OC)/pepper spray. The use of unsafe types of force such as choke holds, carotid control holds, and neck restraints are not authorized. Tasers are not used.

There were two incidents involving immediate use of force on ICE detainees during the inspection period. One use-of-force incident involved an ICE detainee and a county non-ICE detainee engaged in a physical altercation. OC was used when they failed to respond to verbal orders to stop fighting. The detainees were properly decontaminated. The second use-of-force incident involved placement of an ICE detainee in a restraint chair. The restraint chair was utilized after staff used other unsuccessful measures to stop the detainee from injuring himself. The detainee was in the restraint chair for less than two hours and all aspects of the use-of-force policy were

complied with. After each immediate use-of-force incident detainees were taken to the medical department for evaluation. There were no injuries as a result of either of these uses of force. All reports for these use-of-force incidents were reviewed by senior staff. The after-action reviews were approved by the OIC and concluded that the uses of force were justified and appropriate. The uses of force were within the guidelines of facility policy and the standards.

The information on page two, the Significant Incident Summary Worksheet, pertains only to ICE detainees.
