Significant Incident Summary Worksheet

For The Nakamoto Group to complete its review of your facility, the following information must be completed prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE' detainees at your facility.

<i>Incidents</i>	<i>Description</i>	Jan – Mar	Apr – Jun	Jul – Sept	Oct – Dec
Assault: Offenders on Offenders ¹	Types (Sexual ² , Physical, etc.)	N/A	SEX	SEX/PHY	SEX/PHY
	With Weapon	0/0	0/0	0/0	0/0
	Without Weapon	0/0	1	3/1	2/0
Assault: Detainee on Staff	Types (Sexual Physical, etc.)	N/A	N/A	N/A	N/A
	With Weapon	0/0	0/0	0/0	0/0
	Without Weapon	0/0	0/0	0/0	0/0
Number of Forced Moves, incl. Forced Cell moves ³		1	0	0	0
Disturbances ⁴		0	0	0	0

By signing below, the Lead Compliance Inspector (LCI) certifies that all findings of noncompliance with policy or inadequate controls contained in the Inspection Report are supported by evidence that is sufficient and reliable. Furthermore, findings of noteworthy accomplishments are supported by sufficient and reliable evidence. Within the scope of the review, the facility is operating in accordance with applicable law and policy, and property and resources are efficiently used and adequately safeguarded, except for the deficiencies noted in the report.

Recommended Rating:

- ☒ **Meets Standards**
☐ **Does Not Meet Standards**

Comments: This inspection was conducted to determine the overall compliance with the ICE Performance-Based National Detention Standards (PBNDS) 2011. The following are the PBNDS 2011 additions/changes to the standards listed on page three:

- Medical Care (Women), a new standard, was Not Applicable;
- Classification System is now titled Custody Classification System;
- Suicide Prevention and Intervention is now titled Significant Self-Harm and Suicide Prevention and Intervention;
- Escorted Trips for Non-Medical Emergencies is now titled Trips for Non-Medical Emergencies;
- News Media Interviews and Tours is now titled Interviews and Tours;
- Transfer of Detainees is now titled Detainee Transfers

There were no deaths and no serious suicide attempts during the past year. During this inspection period, there were five SA-API allegations. Two allegations involved detainees reporting sexual abuse/assault at facilities prior to their arrival to this facility. Documentation confirmed that the prior facilities were notified about the allegations and the allegations were determined to be unfounded. Three instances alleged detainee on detainee abuse that involved improper touching. None of the allegations involved penetration or required SANE/SAFE nurse examinations. Two of the allegations were found to be unsubstantiated and one was determined to be unfounded. In every situation, the victims were protected and the investigations, follow-up, and documentation were as required by the standard.

The facility does not have a canine unit. Tasers are not used. Chemical agents are carried by certified supervisors. Oleoresin capsicum (OC), the chemical agent used at this facility, will be deployed on ICE detainees, if necessary.

There were four immediate use of force incidents involving ICE detainees during this inspection period and four calculated use of force incidents. Two of the four immediate use of force incidents involved the use of physical force to restrain detainees who were threatening suicide and/or refusing suicide-watch status. The remaining two immediate use of force incidents involved using physical force to control detainees attempting to assault staff. Oleoresin capsicum (OC) was deployed in two of the incidents. The detainee threatening suicide was placed in a restraint chair to prevent harming himself. Medical assessments were completed on all involved and only superficial scrapes and bruises were noted. A review of the restraint chair log revealed that security and medical personnel conducted fifteen-minute well-being checks. Detainees exposed to OC spray, were immediately decontaminated once they were brought under control. The four calculated use of force incidents involved two detainees refusing to be restrained, one detainee refusing a forced cell move and one detainee refusing to being placed on suicide watch. Oleoresin capsicum (OC) was used on two detainees involved in separate calculated use of force incidents. The detainees exposed to OC spray were immediately decontaminated. All calculated use of force incidents were video recorded. Two of the incidents were partially recorded. The after-action review of the two partially recorded use of force incidents noted that the "video recording had breaks". The use of force team supervisor in each incident received remedial training. All use of force incidents received an after-action review and the use of force was determined justified in all instances. Medical evaluations were conducted after each incident and there were no serious injuries to staff or detainees.

The significant incident summary worksheet information represents ICE detainees only.
