Significant Incident Summary Worksheet

For Nakamoto to complete its review of your facility, the following information <u>must be completed</u> prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE' detainees at your facility.

All findings (Deficient and At-Risk) require written comment describing the finding and what is necessary to meet compliance.

LCI Review Assurance Statement

By signing below, the Lead Compliance Inspector (LCI) certifies that all findings of noncompliance with policy or inadequate controls contained in the Inspection Report are supported by evidence that is sufficient and reliable. Furthermore, findings of noteworthy accomplishments are supported by sufficient and reliable evidence. Within the scope of the review, the facility is operating in accordance with applicable law and policy, and property and resources are efficiently used and adequately safeguarded, except for the deficiencies noted in the report.

Comments: The Sexual Abuse and Assault Prevention and Intervention Standard was inspected during this inspection but is not referenced in the Standards Review Summary Report. The Standard was rated as Meets Standard for this inspection.

There were no allegations of sexual assault or abuse involving an ICE detained during this inspection period.

There were no escapes, deaths, serious suicide attempts or uses of force involving ICE detainees during the inspection period. Per the OIC, the sheriff's office has a canine unit for contraband detection but canines are never used in the presence of detainees. The facility does not use or maintain any chemical agents or Tasers. Tasers may be used during transport by certified peace officer deputies who have been trained in their use. The use of unsafe types of force such as choke holds, carotid control holds and neck restraints are not authorized.

The statistics provided on page 2, the Significant Incident Summary Worksheet, pertain only to ICE detainees.

*A new supervisor assumed responsibility for the grievance files in 2017 and mistakenly purged the grievance files dated previous to the date of assuming her duties. Consequently, no grievance information prior to January 2018 was available to the inspection team.
