Significant Incident Summary Worksheet

For Nakamoto to complete its review of your facility, the following information <u>must be completed</u> prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE detainees at your facility.

Comments: The Sexual Abuse and Assault Prevention and Intervention Standard was inspected during this inspection, but is not referenced in the Detention Standards Review Summary Report. The standard was rated as Meets Standard for this inspection.

The Significant Incident Summary Worksheet represents data on all facility detainees; not just ICE detainees. There were no deaths, escapes, serious suicide attempts, hunger strikes, sexual assault allegations, or uses of force involving ICE detainees during the last twelve months. ICE detainees are not charged a medical co-pay.

The facility does not have Tasers. The facility does have a restraint chair. Four/five point restraints are not used at the facility. The facility does not have a canine unit but does permit their use. When a canine unit comes on grounds they are not used in the presence of ICE detainees. The only chemical agent approved for use is Oleoresin Capsicum (OC)/pepper spray. The facility does not use or train staff in the use of unsafe types of restraint.
