## Significant Incident Summary Worksheet

For Nakamoto to complete its review of your facility, the following information <u>must be completed</u> prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE' detainees at your facility.

Comments: The Sexual Abuse and Assault Prevention and Intervention Standard was inspected during this inspection but is not referenced in the Standards Review Summary Report. The Standard was rated as Meets Standard for this inspection.

There were five allegations of sexual assault or abuse involving ICE detainees during this inspection period. None of the allegations involved oral, anal or vaginal penetration or attempted penetration and are not, therefore, referenced in the Incident Summary on page two. Details of the allegations are found in the Remarks section of the Sexual Abuse and Assault Prevention and Intervention standard checklist.

There were no escapes, deaths or serious suicide attempts during the inspection period. The facility does not have a canine unit for contraband detection. Chemical agents are not used by or stored at the facility. The use of unsafe types of force such as choke holds, carotid control holds and neck restraints are not authorized. The use of Tasers is authorized.

During the inspection period, there were seven spontaneous use of force incidents involving ICE detainees. The Security SME reviewed each of the use of force reports. Four of the seven use of force incidents involved the use of the restraint chair. The written reports fully document the incidents and the force used in all seven incidents was appropriate for the circumstances. The after-action reviews conducted by supervisors and managers were completed in accordance with policy. Details of the use of force incidents are found in the Remarks section of the Use of Force standard checklist.

The information reported on page two of the Significant Incident Summary Worksheet, pertains only to ICE detainees. The asterisks (\*) in Section M of Page 1 indicate that the facility was not able to determine by gender the average daily population of ICE detainees.
