## **Significant Incident Summary Worksheet**

For The Nakamoto Group to complete its review of your facility, the following information <u>must be completed</u> prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE' detainees at your facility.

Incidents	Description	Jan – Mar	Apr – Jun	Jul – Sept	Oct – Dec
Assault:	Types (Sexual <sup>2</sup> , Physical, etc.)	Р	P	P	P

## LCI Review Assurance Statement

By signing below, the Lead Compliance Inspector (LCI) certifies that all findings of noncompliance with policy or inadequate controls contained in the Inspection Report are supported by evidence that is sufficient and reliable. Furthermore, findings of noteworthy accomplishments are supported by sufficient and reliable evidence. Within the scope of the review, the facility is operating in accordance with applicable law and policy, and property and resources are efficiently used and adequately safeguarded, except for the deficiencies noted in the report.

Recommended Rating:	Meets Standards		
	Does Not Meet Standards		

Comments: The Significant Summary Worksheet Summary represents data on ICE detainee only, per the OIC. There were no deaths, serious suicide attempts, hunger strikes or escapes involving ICE detainees during this inspection period. ICE detainees are not charged a medical co-pay.

There were five allegations of sexual abuse or assault made by ICE detainees during this inspection period. Three allegations involved male detainee-on-detainee, one allegation was female detainee-on-detainee, and one allegation was staff-on-detainee. The allegations ranged from voyeurism to unwanted or inappropriate touching. The four detainee-on-detainee allegations were found to be unsubstantiated and the staff-on-detainee allegation was determined to be unfounded. A review of the case files showed that procedures were followed according to the requirements of the Standard.

During the inspection period there were two use of force incidents involving ICE detainees. Both incidents involved immediate uses of force. In one incident two detainees were verbally arguing and the aggressor refused all verbal orders to stop his behavior. The detainee took an aggressive stance towards staff which resulted in staff using physical force to contain and place the detainee on the floor. Restraints were applied. Throughout the incident the detainee struggled and resisted. In the second incident, two detainees were fighting and refused verbal orders to stop. Physical force was used to separate the two detainees. One detainee became resistive and uncooperative during the escort to medical and the SMU. Physical control holds were used to manage the situation. In both incidents detainees suffered minor injuries which were immediately treated by medical staff. The use of force in both incidents was appropriate for the circumstances. Both incidents were reviewed by supervisory and management staff.

The facility does not have Tasers. The facility does not have a restraint chair. Four/five-point restraints are not used at the facility. The facility does not have a canine unit. The only chemical agent approved for use is oleoresin capsicum (OC)/pepper spray. The facility does not use or train staff in unsafe types of restraint.
