Significant Incident Summary Worksheet

For The Nakamoto Group to complete its review of your facility, the following information <u>must be completed</u> prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE' detainees at your facility.

LCI Review Assurance Statement

By signing below, the Lead Compliance Inspector (LCI) certifies that all findings of noncompliance with policy or inadequate controls contained in the Inspection Report are supported by evidence that is sufficient and reliable. Furthermore, findings of noteworthy accomplishments are supported by sufficient and reliable evidence. Within the scope of the review, the facility is operating in accordance with applicable law and policy, and property and resources are efficiently used and adequately safeguarded, except for the deficiencies noted in the report.

Comments: The Significant Incident Summary Worksheet represents data on ICE detainee only. The offender on offender assault and the detainee on staff assaults noted in the incident summary worksheet were minor in nature and resulted in no substantive injury to any of the parties involved. There were no deaths, serious suicide attempts or escapes involving ICE detainees during this inspection period. ICE detainees are not charged a medical copay.

There were eight use of force incidents on ICE detainees reported during this inspection period. Six were immediate uses of force and two were calculated. In all incidents, appropriate medical attention was administered immediately following each of the use of force. There were no substantive injuries in any of these incidents. All use of force incidents are fully documented and reviewed by senior command staff. A review of the videos and use of force incident reports revealed that force was applied within guidelines of the standard.

There were five ICE detainees placed on hunger strike protocol during this inspection period. None of the hunger strikes extended beyond 72 hours.

There were four allegations of sexual assault or abuse during this inspection period involving ICE detainees. None of the allegations involved staff. One of the allegations was substantiated and involved the detainee touching the buttocks of another detainee; it was not referred for prosecution. The remaining three were for verbal harassment or improper touching; all were unsubstantiated.

The facility does not have Tasers. The facility uses a restraint chair. Four/five-point restraints are not used. The facility has a canine unit but it is not used in the presence of ICE detainees. The only chemical agent approved for use is oleoresin capsicum (OC)/pepper spray. The facility does not use or train staff in the use of unsafe types of restraint.
