Significant Incident Summary Worksheet

For Nakamoto to complete its review of your facility, the following information <u>must be completed</u> prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE' detainees at your facility.

Comments: The Sexual Abuse and Assault Prevention and Intervention (SAAPI) Standard was inspected during this inspection, but is not referenced in the Standards Review Summary Report. The standard was rated as Meets Standard for this inspection. The information provided on the Significant Incident Summary Worksheet references the ICE detained population.

There was one SAAPI allegation during the inspection period. A female ICE detainee alleged that two other female ICE detainees were engaging in inappropriate contact in the housing unit. The allegation is under investigation. There were no deaths, serious suicide attempts or escapes during the inspection period.

There were nine use of force incidents involving ICE detainees. Five calculated incidents involved the placement of a detainee in the restraint chair for mental health and safety concerns. No videos of these calculated uses of force were available for review. The other four incidents involved placing detainees in restraints after two separate fights. All reports indicated that force was applied within guidelines of the standard. The medical evaluations were timely. Three detainees were treated for minor injuries.

The facility does not use Tasers on ICE detainees. The facility does not have a canine unit. Chemical agents will be used on ICE detainees if needed.
