## Significant Incident Summary Worksheet

For Nakamoto to complete its review of your facility, the following information <u>must be completed</u> prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE detainees at your facility.

Comments: The Sexual Abuse and Assault Prevention and Intervention Standard was inspected during this inspection but is not referenced in the Detention Standards Review Summary Report. The standard was rated as Meets Standard for this inspection.

The Significant Incident Summary Worksheet represents data on ICE detainees only. ICE detainees are not charged a medical co-pay. There were no ICE detainee deaths during this inspection period. There were no hunger strikes or serious suicide attempts during the inspection period. The high number of reported assaults is due to the facility policy of reporting all mutual altercations as assaults.

Chemical agents are available but are not deployed on ICE detainees. Canines are not utilized. There were no escapes in the past year.

There were no physical responses to detainee resistance during the inspection period, although a number of reports were filed documenting the routine application of restraints, per the facility policy. None of the situations involved any forcible contact with ICE detainees.

There was one allegation of sexual assault or abuse involving two female ICE detainees, which was unsubstantiated. The appropriate precautions were taken for the alleged victim, the investigation was conducted, and the incident was documented as required.
