Significant Incident Summary Worksheet

For Nakamoto to complete its review of your facility, the following information <u>must be completed</u> prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE detainees at your facility.

All findings (Deficient and At-Risk) require written comment describing the finding and what is necessary to meet compliance.

LCI Review Assurance Statement

By signing below, the Lead Compliance Inspector (LCI) certifies that all findings of noncompliance with policy or inadequate controls contained in the Inspection Report are supported by evidence that is sufficient and reliable. Furthermore, findings of noteworthy accomplishments are supported by sufficient and reliable evidence. Within the scope of the review, the facility is operating in accordance with applicable law and policy, and property and resources are efficiently used and adequately safeguarded, except for the deficiencies noted in the report.

Comments: The Sexual Abuse and Assault Prevention and Intervention Standard (2011) was inspected during this inspection but is not referenced in the Standards Review Summary Report. The standard was rated as Meets Standard for this inspection.

The Significant Incident Summary Worksheet represents data on ICE detainee only, per the AOIC. There were no deaths, serious suicide attempts, hunger strikes, uses of force, or escapes involving ICE detainees during this inspection period. ICE detainees are not charged a medical co-pay.

There was one sexual assault allegation involving an ICE detainee during this inspection period. Two detainees were in a housing unit dayroom and one detainee complained the other detainee touched him inappropriately when walking past. Employee and detainee interviews and video evidence did not support the detainee's allegation and the incident was classified as unfounded.

The facility does have Tasers. Policy does not prohibit their use on ICE detainees. The facility does have and uses a restraint chair. Four/five point restraints are not used at the facility. The facility does not have a canine unit but does permit their use. When a canine unit comes on grounds they are not used in the presence of ICE detainees. The only chemical agent approved for use is oleoresin capsicum (OC)/pepper spray. The facility does not use or train staff in the use of unsafe types of restraint.
