## **Significant Incident Summary Worksheet**

For Nakamoto to complete its review of your facility, the following information <u>must be completed</u> prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE' detainees at your facility.

Comments: The Sexual Abuse and Assault Prevention and Intervention Standard was inspected during this inspection, but is not referenced in the Detention Standards Review Summary Report. The standard was rated as Meets Standard for this inspection.

The information provided on page 2, the Significant Incident Summary Worksheet, pertains to the ICE detainee population. There were no allegations of sexual assault or abuse involving ICE detainees. During this inspection period, there was one immediate use-of-force incident involving an ICE detainee who refused an officer's order to come out of his cell. A review of the report and video indicated that force was applied within guidelines of the standard. The medical evaluation was timely. The detainee was not injured. There were no reported escapes, deaths or serious suicide attempts during the inspection period.

During the inspection period, one ICE detainee declared a hunger strike. Hunger strike protocol and procedures were initiated. Standard guidelines were followed.

The facility does not have a canine unit. The use of OC (oleoresin capsicum)/pepper spray is authorized. The use of unsafe types of force such as choke holds, carotid control holds and neck restraints are prohibited by policy. Tasers may be deployed on ICE detainees, if necessary.
