## **Significant Incident Summary Worksheet**

For Nakamoto to complete its review of your facility, the following information <u>must be completed</u> prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE detainees at your facility.

All findings (Deficient and At-Risk) require written comment describing the finding and what is necessary to meet compliance.

## LCI Review Assurance Statement

By signing below, the Lead Compliance Inspector (LCI) certifies that all findings of noncompliance with policy or inadequate controls contained in the Inspection Report are supported by evidence that is sufficient and reliable. Furthermore, findings of noteworthy accomplishments are supported by sufficient and reliable evidence. Within the scope of the review, the facility is operating in accordance with applicable law and policy, and property and resources are efficiently used and adequately safeguarded, except for the deficiencies noted in the report.

Comments: The Sexual Abuse and Assault Prevention and Intervention Standard was inspected during this inspection, but is not referenced in the Detention Standards Review Summary Report. The standard was rated as Meets Standard for this inspection.

The Significant Incident Summary Worksheet represents data on ICE detainees only. There were no serious suicide attempts, deaths, or escapes during this inspection period.

There were three ICE detainee hunger strikes reported during this inspection period. The first two were a 25-year old female Hispanic detainee and a 33-year old female Hispanic detainee who were refusing meals because they had not received a response from ICE on their cases. Both detainees were taken to the University Medical Center emergency room for evaluation and treatment as ordered by the nurse practitioner. Both detainees were transported back to the facility after evaluation and treatment. Hunger strike monitoring on both detainees were discontinued by the nurse practitioner on the following day. The third detainee, a 29-year old Hispanic male, went on a hunger strike because he wanted to speed up the process on his asylum application. He was taken to the University Medical Center emergency room as ordered by the nurse practitioner for evaluation and treatment but refused the service upon arrival at the hospital. He was transported back to the facility and hunger strike monitoring was continued until he bonded out. A review of the detainees' medical records indicated that the medical practices and procedures fully comply with requirements of the standard.

There were three sexual assault allegations involving ICE detainees during this inspection period. Two incidents were male detainee-on-detainee allegations and one was a female detainee-on-detainee allegation. The allegations consisted of unwanted touching that were reported to the sergeant on duty by the alleged victims. The allegations were investigated and determined to be unsubstantiated. All required procedures were followed and fully complied with the stipulations stated in the standard.

There were ten use-of-force incidents involving ICE detainees reported during this inspection period. Three of the incidents were calculated and seven were immediate. The video recordings of all the calculated use-of-force incidents were reviewed. In all of the incidents, medical treatment was immediate. There were no uses of Oleoresin Capsicum (OC)/pepper spray. The incidents were properly reviewed by senior staff. All of the force used was appropriate, necessary, and not excessive.

The facility does not have Tasers. The facility does not use a restraint chair or four/five-point restraints. The facility does not have a canine unit. If a canine unit is brought in they are not used in the presence of ICE detainees. The only chemical agent approved for use OC/pepper spray. The facility does not use or train staff in the use of unsafe types of restraint. ICE detainees are not charged a medical co-pay.
